

# TSMO and MOD Integration Peer Exchange

Topic #2: Defining MOD and TSMO Overlaps

---

FEB 12, 2021

*Laurie Matkowski*

*Director of Connected and Automated Vehicle Services*

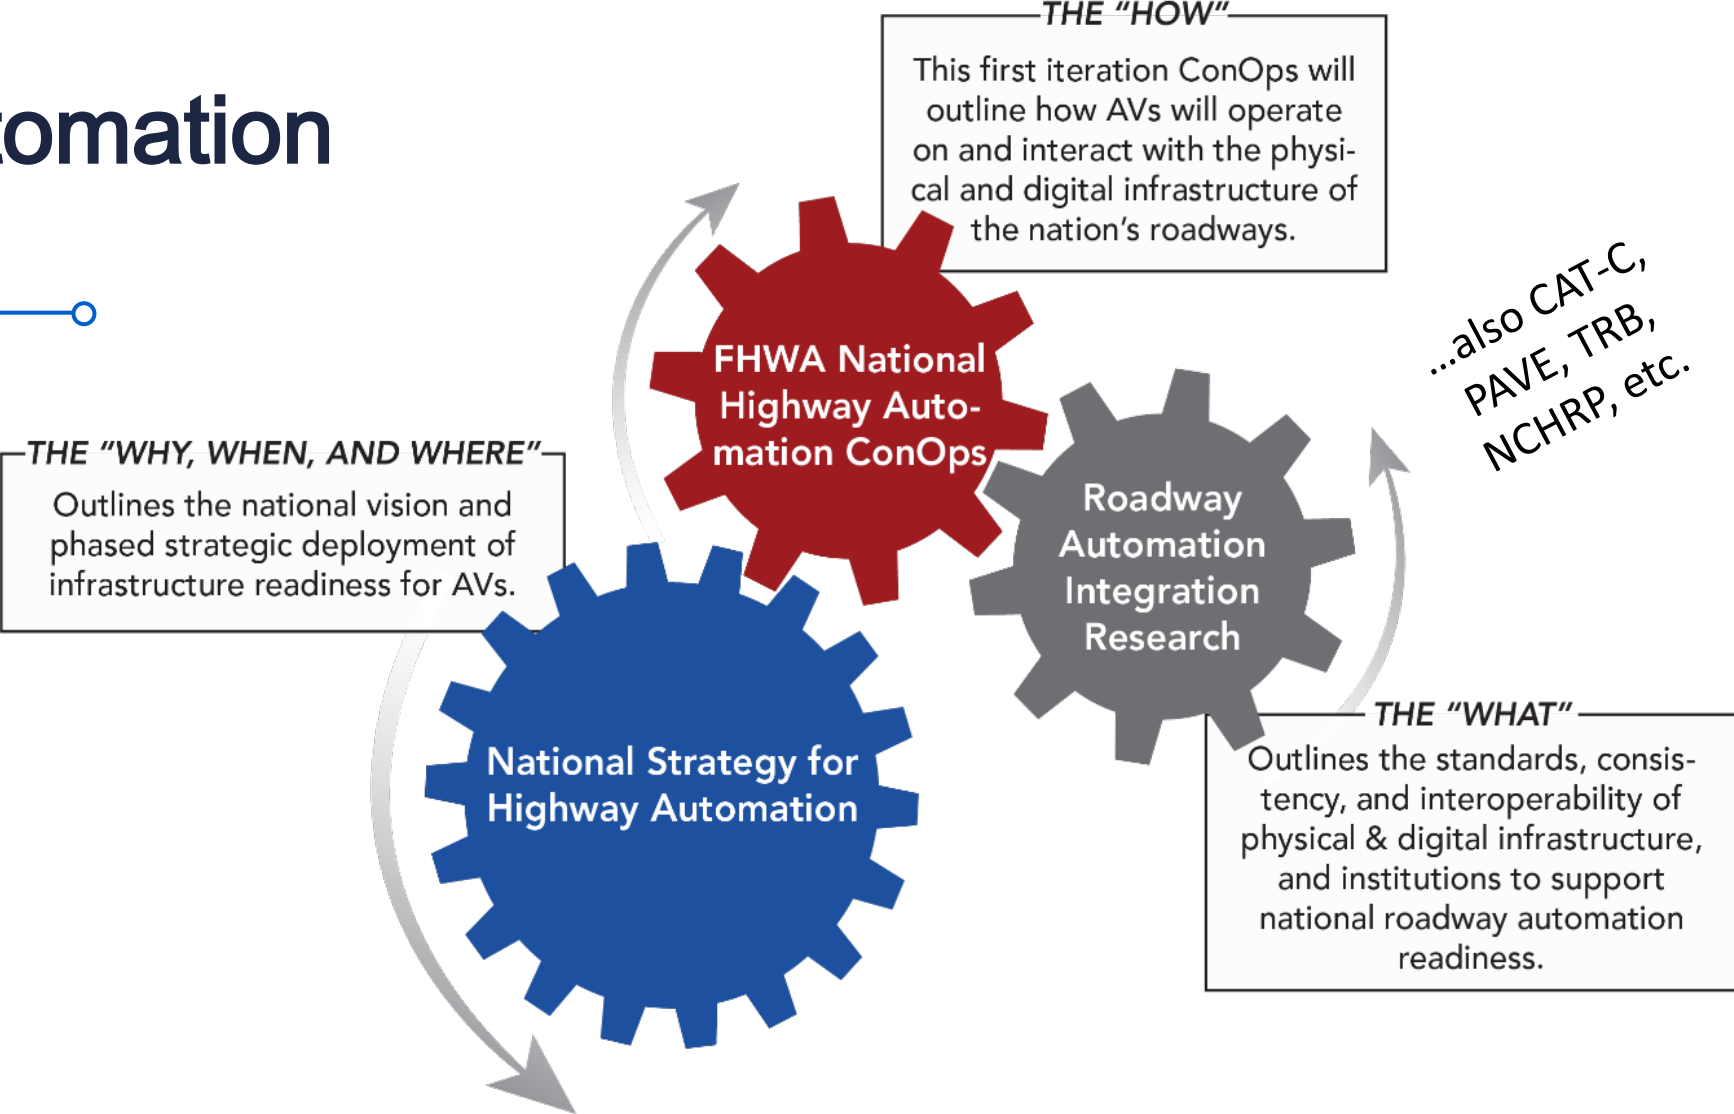

# Advanced Mobility: Two Sides of the Spectrum

# National Transportation Automation Intersection

- Addressing challenges with 21<sup>st</sup> century solutions
- Leading transformational improvements to mobility
- Innovation & technology to benefit safety and mobility

# Current Major Work

## 2020 ACTIVE TRANSPORTATION AUTOMATION READINESS PROJECTS

NATIONAL

- National Strategy on Highway Automation
- National Roadway Automation Concept of Operations
- FHWA AV Infrastructure Readiness

MULTI-STATE

Regional Assessment of Readiness for Automated Vehicles

AV RUC Demonstration

STATE/LOCAL

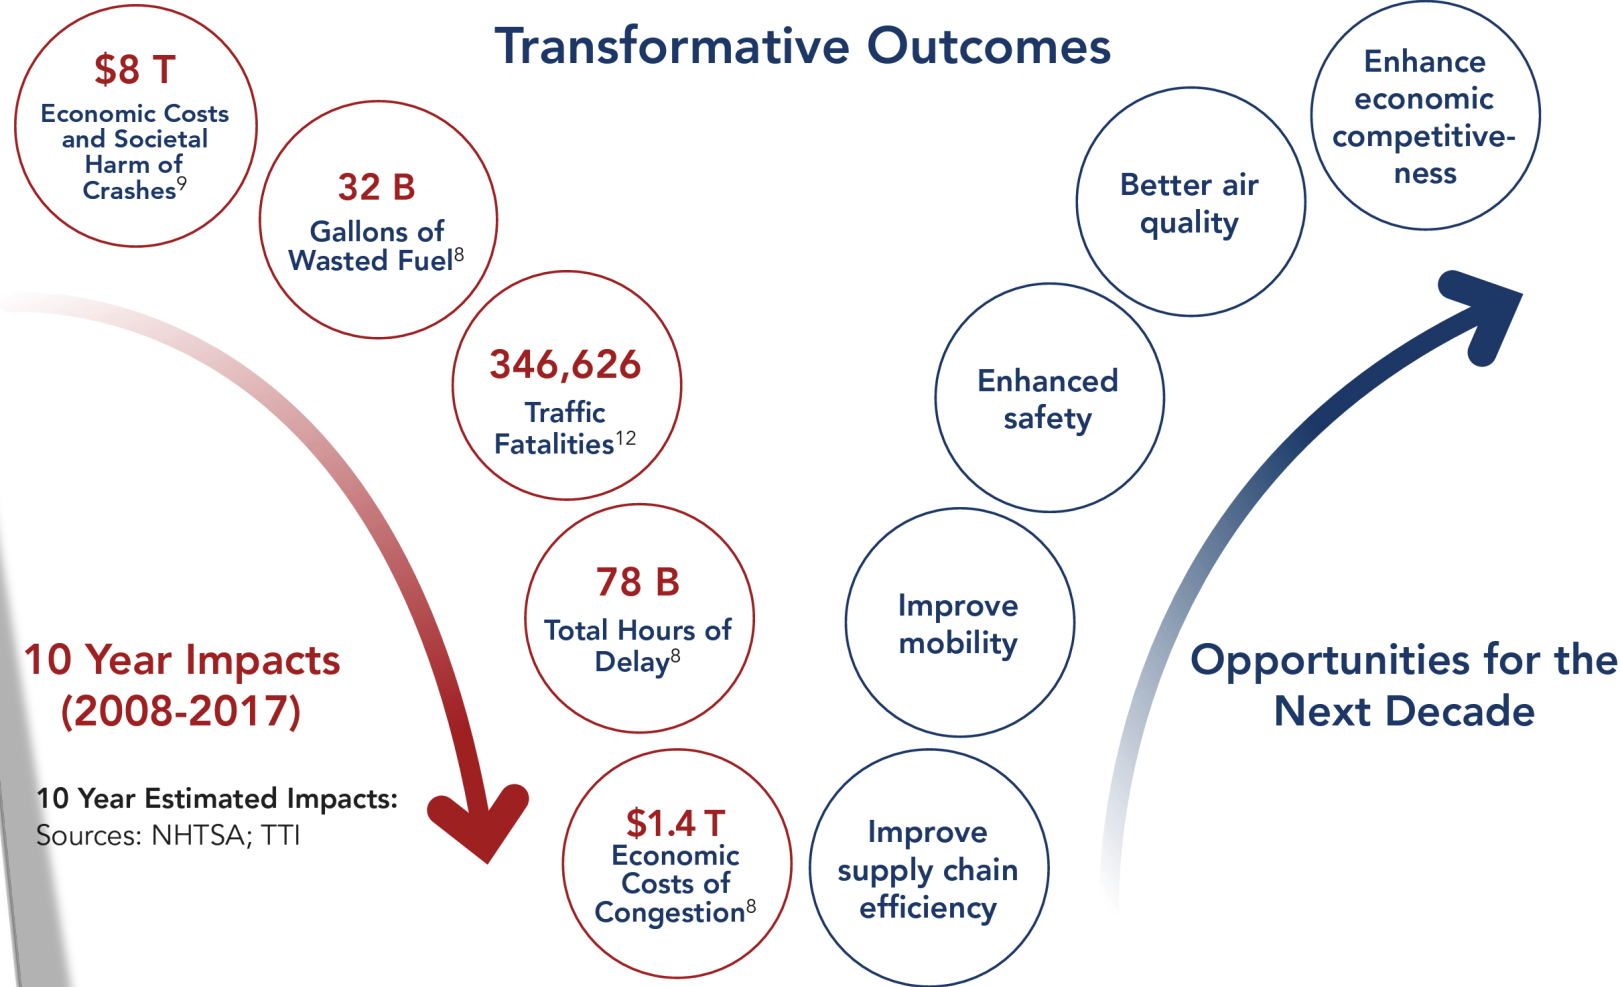

NEW JERSEY DEPARTMENT OF TRANSPORTATION

# AASHTO National Strategy

## Transformative Outcomes

# AASHTO National Strategy: Business Case

## GLOBAL ECONOMIC COMPETITIVENESS & GROWTH

- Improve supply chain efficiency
- Reduce costs of traffic congestion
- Reduce cost of crashes
- Improve mobility for underserved groups
- Improve workforce capabilities

## NATIONAL SECURITY & EMERGENCY MANAGEMENT

- Military readiness
- Logistics mobility
- Improve mass evacuations
- Coordinated emergency management
- System resiliency

## PUBLIC HEALTH & SAFETY

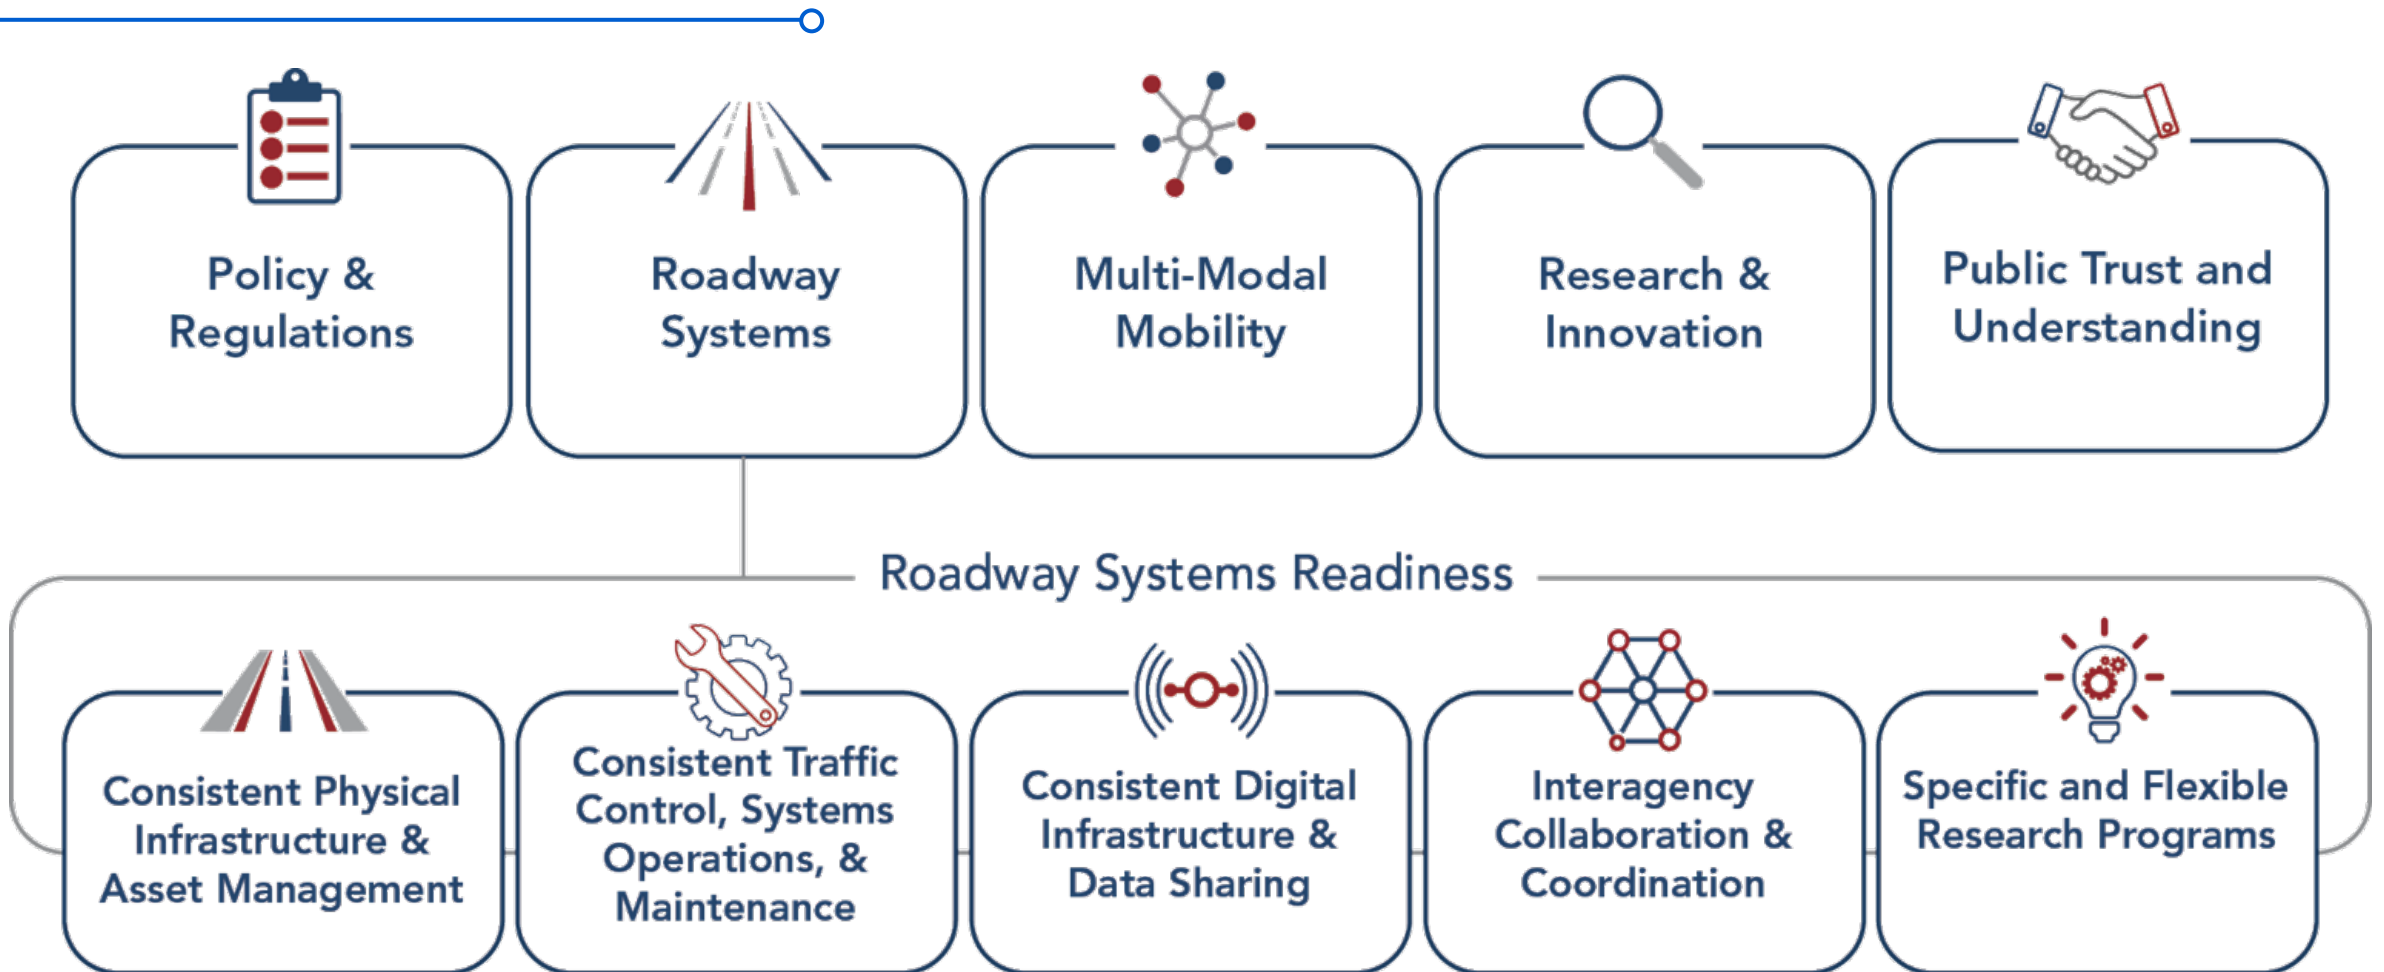

- Reduce fatal and serious injury crashes
- Better air quality
- Enhance safety for vulnerable users
- System sustainability
- First responder safety

## COROLLARY TECHNOLOGICAL ADVANCEMENT

- Support telecommunications and connectivity
- Advance automation and artificial intelligence
- Scalable electric vehicle infrastructure
- Support for connected devices and Smart Cities

# AASHTO National Strategy: Readiness Categories

# AASHTO National Strategy: Readiness Categories

## CONSISTENT PHYSICAL INFRASTRUCTURE & ASSET MANAGEMENT

- Structural Integrity
- Pavement condition
- Bridge capacity
- Roadway geometry

## CONSISTENT TRAFFIC CONTROL, SYSTEMS OPERATIONS, & MAINTENANCE

- Pavement Marking Standards
- Traffic signals phasing/timing, countdown status
- Active traffic control systems management
- Managed Lane strategies

## CONSISTENT ACTIVE DIGITAL INFRASTRUCTURE & DATA SHARING

- Fiber Optics
- Connectivity to/from AVs
- Cybersecurity
- Historic, regulatory, real-time, future data sharing
- Scalable data analytics
- Digital mapping
- Data specifications

## CONSISTENT MULTI-AGENCY OPERATIONS INSTITUTIONS

- Build/mature existing institutions
- Consistency & standards
- Information sharing
- Workforce development

## FOCUSED AND NIMBLE RESEARCH & DEVELOPMENT

- Dedicated R&D program
- National vision and roadmap should inform R&D needs
- Focus SHRP 3 on automation readiness
- More R&D on underserved users and markets

# AASHTO National Strategy: Phased Approach

# Building Smarter Infrastructure: Leveraging TSMO

## Infrastructure ...withINSIGHTS

### Catalyzing a Bold Vision

Creating a more affordable, sustainable and equitable communities through TSMO, MOD and improved public service delivery.

### Digitally Transforming Government Operations

At an annual net savings to states and municipalities.

### Providing an Innovative Platform for New Technologies

Such as big data computing and artificial intelligence.

### Virtually Linking Government Service Sectors

This will enhance public benefit.

SMART ROADWAYS

ADVANCED ROADWAY ENGINEERING

CLEAN ENERGY SYSTEMS

OPERATION CENTERS

AUTOMATED TRANSPORTATION

REAL-TIME & PREDICTIVE ALERTS

5G & HIGH-SPEED INTERNET CONNECTIVITY

VERTICAL MOBILITY SERVICES

TELE-HEALTH & EDUCATION + ECONOMIC DEVELOPMENT

INTERNET OF THINGS

Thank You!
