

Session 1: Data

- Data Sources
 - Crash Data (DOR), INRIX, CAD (CSP and others), CDOT Safety Patrol, MDSS, Traffic Vision Cameras
- What type of data sharing agreements do you have
 - Waze data (in progress)
 - IGA's with Jeff Co CAD, Denver CAD, and DOR (Crash Records)
- Do you use probe data? If so, how are you using probe data for operations? Are you using the probe data in real time?
 - AVL equipped CDOT Maintenance Vehicles and Toll Tags

Session 1: Data

- Have you been able to crowdsource data for operations activities? If yes, describe the operations activities.
 - Colorado leverages Waze and INRIX
- What type of legal and institutional issues have you been challenged with and how have you overcome them?
 - CDOT uses encrypted Toll tag data and deletes it within a specified time period
 - Ownership of data. Proprietary provisions limit the allowable use of data by agencies
