

WHO IS THIS TIM GUY AND WHY DO WE KEEP TWEETING ABOUT HIM?

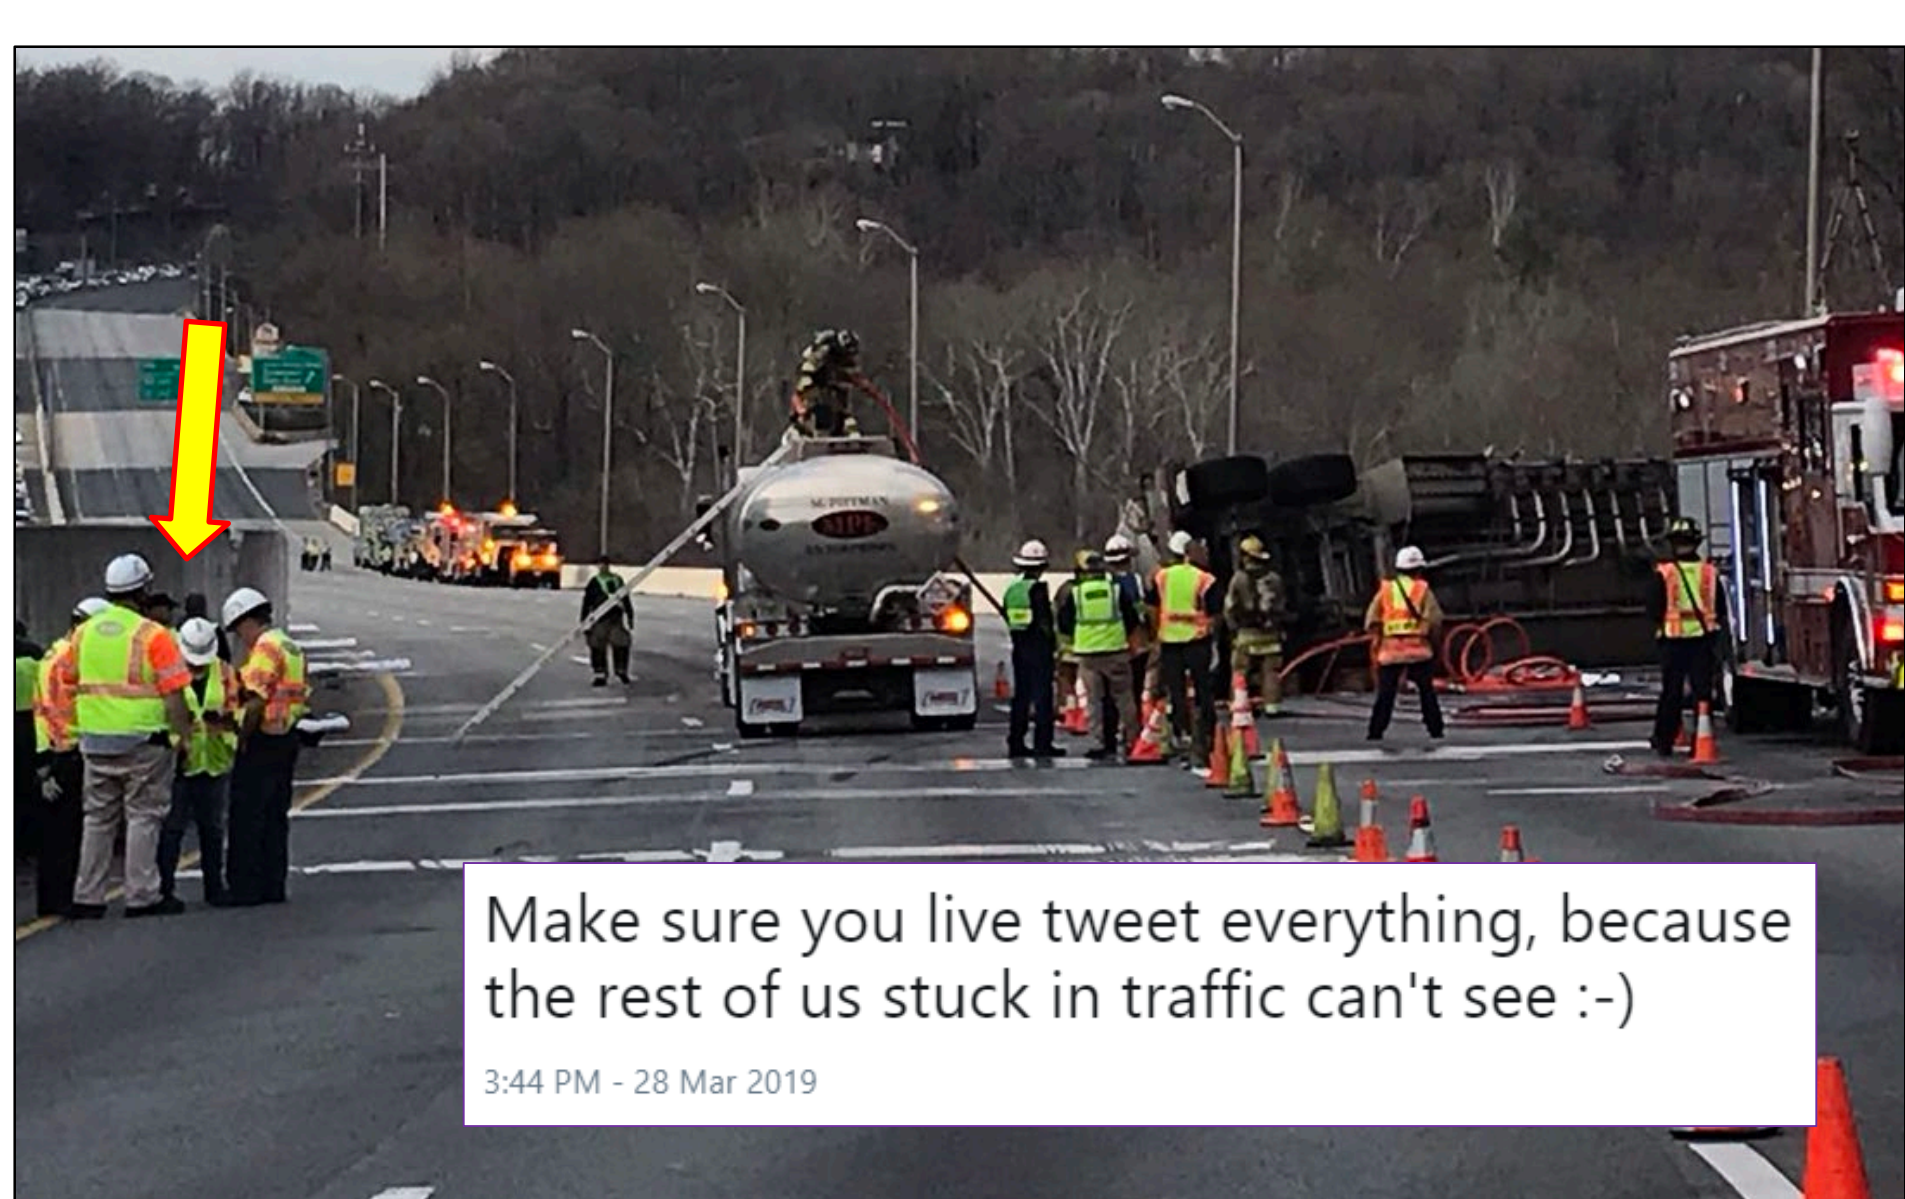

VDOT Northern Virginia's Use of Social Media in Traffic Incident Management

Ellen Kamilakis

Senior Public Affairs Officer

ellen.kamilakis@vdot.virginia.gov

September 25, 2019

Make sure you live tweet everything, because the rest of us stuck in traffic can't see :-)

3:44 PM - 28 Mar 2019

Case Study: American Legion Bridge Tanker

Background

- 2.2 million residents (25% of state population)
- 14,000+ lane miles maintained
- I-495 (Capital Beltway) Inner Loop at Potomac River
- Annual Average Daily Traffic: 116,500
- Rush hour begins around 3 p.m.
- Established practice of live-tweeting
 - Snow operations
 - Pipe replacements
 - Potholing
 - Flood repairs
 - And now incidents!

Case Study: American Legion Bridge Tanker

Goals

- Get the word out to all, especially influencer accounts
 - Media
 - Partner agencies/jurisdictions
 - Elected officials
- Provide accurate info at all times
- Manage expectations
- Be relatable, responsive, empathetic, and light-hearted
- Show things that aren't normally seen
- Explain the process and work of your people
- Humanize your agency and personnel
- Have fun!

#FCFRD and @mcfrs HazMat crews currently working to transfer gasoline from overturned trailer. They have successfully offloaded one pod (1/4 of product), they have 3 pods left. Anticipate completing operation in next 2 hours after which @VaDOTNOVA will work to upright tanker.

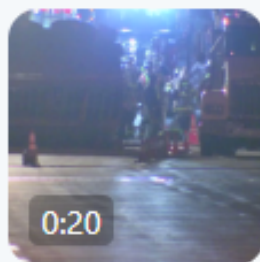

AJ Thompson

@AJ_ThompsonJr · Mar 28

Are people still just stuck there ?

Van Applegate @vbagate

UPDATE: 1 of 4 gasoline pods has been unloaded. 3 left. Could take around 2 hours to finish transfer of fuel. At that point crews can move in to upright the trailer. Crew that would be lifting the truck tells @Idemarcofox5 it will take the, around 90 minutes, if it goes smoothly.
