ALDOT CMM

ALDOT has not utilized the Capability Maturity Model framework to address maintenance workforce needs.

ALDOT Operations performs an Annual CMM Assessment in January each year. It evaluates each Region across the six CMM dimensions. Other than an objective score for Organization/Workforce, it does not address actual needs. The Alabama Statewide TSM&O Strategic & Program Plan does address actual needs by organizational structure and high-level position descriptions. We are reviewing our current CMM process for January 2020; whereby we will look to evaluate each of the nine Service Layers of the Strategic Plan against the six CMM dimensions.
