

History of the Oklahoma TIM Coalition

Established July of 2015

GOALS: to increase the awareness across the state with a blast of training adding to what OHP and others started in 2013

- Through classes and train-the-trainer classes
- Initially produced 450 instructors across the state
- Currently active about 150
- Within a couple of years we doubled our student #'s
- Lead the nation in % of responders trained-approaching 100%

Evaluated our state's responder totals:

- Currently just over 26K responders, setting at 62% trained

Other Coalition Activities:

- Built and manage OKTIM.org website- students/instructors/resources
- ODOT Cable barrier safety awareness video for all roadway workers
- Oklahoman-ized 4 hr. online class available 24/7 requested by TRSV
- L-TAP road scholar program includes TIM- in person location and several remote locations at career tech centers across the state for one class
- Constantly recruiting instructors to join OKTIM.org to corral student numbers
- Adding TIM info to states drivers manual along with test questions
